The Parish of St Helier have engaged contractors who will be undertaking some carriageway repairs and maintenance to the surface water drainage present on the road. The area in question has received a significant amount of damage from both Storm Ciaran in October of last year, as well as continued surface water which has caused failures around the drainage in place on the road.

A plan is attached showing the area of work.

Access to properties will be maintained, however please note.

- Properties west of the area of works should access their properties from Mont Cochon
- Properties to the east of the works should access from La Grande Route de Mont a L'Abbe.
